## Product

### Cable and Pipe Transit Sealing System

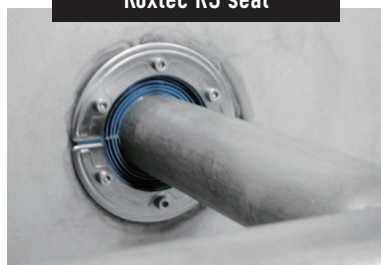

Roxtec sealing system is a mechanical solution for single and multiple cable/pipe penetrations. Our sealing solutions are certified to reduce the risk of fire, gas, water, dust, blast, salt, and vibration. There are also solutions for Ex and EMC as well as for bonding and grounding.

Roxtec S series

Roxtec S series are available with one or several openings for cables or pipes.

Roxtec RS seal

Roxtec RS PPS / S seal

Roxtec round seals are ideal for metal and plastic pipes.

Roxtec cabinet solutions

Variety of solution are available and they are used to replace cable glands in cabinets and enclosures.

### FLEXIBILITY

Our invention for adaptability, Multidiameter™, is a solution based on rubber modules with removable layers. It allows for a perfect sealing, regardless of the dimension of the cable or pipe. This flexibility simplifies design, speeds up installation work and reduces the need for stock, material and logistics. It also provides built-in spare capacity for cost-efficient maintenance and future upgrades.

### APPLICATIONS

Roxtec products are used to seal cables and pipes passing through decks and bulkheads on ships and offshore units. They are used between sections, such as machine and equipment areas, storage rooms, and living compartments. They are also used in control cabinets and junction boxes.

## After-sales service

We offer Transit Safety Service Programs to ensure protecting life and assets. Our sealing experts perform visual inspections of cable and pipe transits to check if sealing solutions are correctly installed and fully functional on marine and offshore units. Our head office is in Sweden and, through our subsidiaries and distributors, we provide local support and service in more than 80 markets around the world.

## Record

Roxtec is the world leader in modular-based cable and pipe transits. Roxtec seals are available all over the world to help players in the marine and offshore industries ensure safety, efficiency and operational reliability. The record references are AHTS, PSV, FPSO, drill ship, semi-submersible rigs and platforms.

### Certifications / Applicable rules

ISO 9001

ISO 14001

Certified by all leading classification societies

Roxtec products are fire tested and approved for use in A, B and H class rated sections according to IMO Res. A 754 (18) / IMO FTP 2010 and SOLAS, and tightness tested according to DNV type approval program 8-471. 19-1.
